CERCLA Notifications for File: BURDEN CHEMICAL CO. Notifications of 1981

Paul M. Wittmeyer *Paul M. M.*
Assistant Regional Counsel (BURC-L)

Sam Nott, Chief
Superfund Branch (UAR-S)

During 1981, twelve notifications of hazardous waste site activity were submitted by the burden inc. and burden Chemical Co. of Louisiana and were referred to legal staff for review and action.

In accordance with 40 C.F.R. Part 2, we have provided notice and an opportunity to comment to burden inc., and have received no substantive "determination" or November 3, 1983 which provided, in accordance with 40 C.F.R. §2.205(f), "final agency action" holding that burden had not substantiated its claim for confidential treatment, and inviting burden to bring suit in federal district court if it desired judicial review.

We have received no complaint, and the "ten days" which we had to wait has long past. These twelve CERCLA §103 notifications may be filed in your regular CERCLA files and shared with other agencies as desired. These include:

LAU3026 (Monochem Landfill) [LAS000001132]
LAU301c (Ascension Landfill) [LAS000001133]
LAU0507 (Four-Way Hauling) [LAS000001134]
LAU0345 (Petro Processing) [LAS000001135]
LAU0350 (L.L.A.H. Site) [LAS000001136]
LAU0357 (Collins Site) [LAS000001137]
LAU0639 (Retrochemical) [LAS000001138]

TXU0175 (Bio-Ecology Site) [TAG000001501]
TXU1751 (Angelina Landfill) [TAG000001503]
TXU0549 (Bibolli City Dump) [TAG000001662]
TXU0557 (Bibolli Plant Dump) [TAG000001663]
-- ---- (Minera Rosicler, Mexico) -----

We recommend that you place this memorandum and a copy of the formal determination of November 1983 in the file with each notification. Further, since you have no file on the last named site (not in the United States), we recommend sending it to EPA Recyclers, UIC of International Activities (R-116), through the Regional Administrator, for possible referral of the data to the Republic of Mexico. Note: Burden Chemical Co. of Geismar, Louisiana reportedly sent 1100 tons of waste to Minera Rosicler S.A. de C.V., Opal, Zacatecas, Mexico during the years 1977 to 1979. If we may be of further assistance, call me at extension 7-6552.
